

## VEHICLES MAIN SCREEN

**NOTE: If you should click on a link and it does not appear to work, usually holding down the “Control Key” while left clicking the mouse will resolve the problem.**

**The Fall 2013 vehicle bid cycle has been completed. The indexes and contract sheets have been updated accordingly.**

**The vehicle contracting team consists of the following Procurement Managers:**

**Law Enforcement, Sedans and Utilities/SUV’s.....Stacy Adams**

**Cab/Chassis.....Cheryl Patrick**

(Cheryl also processed the related set of “Truck Body” contracts. They are intended to be used in concert with the “Cab/Chassis” contracts.)

**Vans and Pick-Ups.....Richard Edmondson**

Procurement Manager contact information can be found at the top of each index and contract sheet. Please address questions to the applicable procurement manager. If said procurement manager is unavailable and the question cannot wait, the other members of the team will likely be able to assist.

Each bid cycle requires a great deal of information to change on our website. Due to the number of changes there is always a chance some information may have inadvertently been posted in error, is unclear, or may not function as intended (example: a link goes nowhere or to the wrong place). Please let us know if it appears something in the vehicles portion of our website needs to be corrected or improved.

**Contractors are strongly encouraged to check their contract listings for accuracy!**

**NOTE: The contract for the Law Enforcement Touring Motorcycle is currently being protested and is pending a decision by the Chief Procurement Officer. The contract sheets for Law Enforcement vehicles will be updated to reflect updates as they become available.**

**NOTE: The contract renewal option for the Chevrolet Tahoe was exercised with limitations. As General Motors is not currently producing Law Enforcement Chevrolet Tahoe vehicles, the supply of same is limited to quantities already on hand. There is not another law enforcement vehicle that falls in this category from any other manufacturer. Love Chevrolet Company will continue to sell the 2014 police model Chevrolet Tahoe as specified at the 2012 contract price of \$25,288 until the supply on the lot has been sold or until October 31, 2014, whichever comes first. If another solicitation is published for this vehicle type before the next bid cycle, the ensuing contract would result in the termination of this contract.**
